Short in Their Dues
Ottawa, April 11,—Hon. Mr.
Flynh, commissioner of crown lands
for Quebec, is in Hull holding an investigation in connexion with an alleged arrear of lumber dues by
Buell, Orr & Wurdman, the firm
attributing the discrepances to in-Buell. Orr & Wurdnan, the firm statibuting the discrepances to in-securate returns sent in by the gov-crements bush ranger. It is currently rumored the alleged arrears total nearly \$12,000.00. As to what action the government will take to recover the money in eventof the claim being declared valid, popular surmises are condicting. One well-known lawyer stated that's n action would be im-mediately instituted, while another promises barriaire contended that the firm would be threatened with cancellation of their licenses. It is said the firm admits a sheringe in said the firm admits a sheringe in cancellation of their licenses. It is said the firm admits a shortage in the statement of their logs, as sent in to the department, but maintain that the fault rested with the Crown timber inspector, insamuch as they were misled by his report.

"Least winter was on the whole very favorable for cuttle, but towards the ended April a phenomenally severo movatora for the season of the year was experiment, extending form the foot hills of the mountains to genife distance seat, and eversing the general read of the feeting of the great part of the feeting areas and the seasult was very districtors so far as the call crop was cheered.

distinctions to fir to the content of the content o et be anythered for continuing quar-antine against stock brought in here from the south, at least so long an

therefore open itself in this vey lay hyrchasing the States long-wistings and two-year-olds and bringing them up into this country till they were fully developed. There would be an immense profit in this. The only thing to be guarded against is that this profit shall not be made by our neighbors, the stockness to the sorth-rail by ourselves. This could be metropolably, by limiting the importations of stock ists this country except to actual settlers, or to those having already large veted interests a leady to the country except to actual settlers, or to those having already large veted interests in the case of the latter preventing them from disposing of pile cattle brought in until a least one year aften date of imports too. This would probably prevent the trade failing into the hands of our competitors across the line. When the stock becomes fully manured, it would be shipped as a dead mest, for England and other points. Looked at in this light it will be seen that scheduling may prove very advantageous so far as North-west interests are concerned."

weet interests are concerned.

The Dominion Government is about to rebuild the Laurente at Tracedic, Gloncester Co., N. B., the sum of \$21,000 having been voted for that purpose. Lapreay in Canadia and its neighborhood, and there are retedy additions to the colony of lopers notwithstanding all efforts for the suppression of the terribel delease. The nurs who have had change of the Lauretto for thirty or forty 'grav, have been greatly bundicapped by inferior buildings and facilities and facilities and facilities will be thoroughly equipped with all modern improvements for the treatment of the unfortunities.

The Massey-Harris Co., Ltd.

treatment of the unfortunates.

The Massey-Harris Co., Ltd., claim that in 1892 they used in making up their goods the following quantities of raw material—240,000 lbs of guantities of raw materials—240,000 lbs of moulabilities, 3,880,000 lbs of moulabilities, 3,880,000 lbs of moulabilities, 3,880,000 lbs of cold and côte, 3,600,000 lbs of bar from; binder twins enough to extend around the arth at the quanter twenty-two, and one half times—5,400,000 lbs of pig from, the whole representation and the second of the se ing 39,840,000 lbot material. Then there was 5,500,000 aquare feet of timber, canvas duck 147,307 square yarch. 45 tons of paper, besider great quantities of wire, brass, op-per, tis, zinc, lead, babbit metal, sitive, nails, tacks, acrow's and substraints of the state of the sitive, nails, tacks, acrow's and substraints of the state of the siting melasars, buse, brossus and window glass.

the months of feet the such on the came show it to be six feet side and of good cooking quality. Quant minute het going to be the only mining fractury in the floundary nick extent. Let mithe grave in a large size extent.
